DATA SHEET NO: 7628

PRODUCT NAME/VISCOSITIES:

PETROL INJECTOR CLEANER

DESCRIPTION:

Maximum strength, highly concentrated cleaning agent developed to remove deposits from petrol fuel injection systems.

APPLICATION:

By addition to the fuel tank prior to refueling. Treats 60 litres.

Storage Instructions: Avoid strong direct light and heat.

USER BENEFITS:

Petrol Injector Cleaner has been specifically formulated for gasoline fuelled engines which are fuel injected.

It provides:-

- Overcome rough engine running – stalling, poor throttle response and hesitancy due to deposits – typically overcome with one treatment
- Engine emissions reduced
- Emissions control equipment (catalysts) unaffected by treatment
- Fuel injector eliminated
- Improves torque, power or acceleration
- Fuel system corrosion protection improved
- Fuel/water handling characteristics improved
- Fully compatible with all types of gasoline – leaded, unleaded and oxygenated
- Very economical treatment rates
- Treatment cost repaid in improved efficiency

PERFORMANCE PROFILE:

- One tank full of treated fuel has been found to clean up all problems in test vehicles

TYPICAL CHARACTERISTICS:

Specific Gravity@15°C 0.823
Flashpoint °C >65
