

PRODUCT DATA SHEET

PRODUCT NAME/VISCOSITIES:

VSPe POWER PLUS (250ml)

Product No	7916
Issue No.	2
Issue Date	26/02/19

DESCRIPTION:

This product is an 'all in one', one shot, fuel treatment providing ethanol protection, lead replacement and an octane improver that adds up to two octane numbers (20 points) to unleaded fuel.

APPLICATION:

Recommended for all classic engines previously requiring leaded fuel and now running on unleaded fuel. One bottle treats approx 50 litres of unleaded fuel.

USER BENEFITS:

- Endorsed by the FBHVC as a fuel treatment for protection against corrosion in metals.
- Adds up to 2 octane numbers (20 points) to unleaded fuel.
- Prevents valve seat recession when used with unhardened valve seats.
- Prevents detonation, hot spots & running on.
- Prevents fuel system corrosion and helps protect components.
- Combats the adverse effects of ethanol in fuel (up to E10).
- Carburettor anti-icing formula.
- Contains anti oxidant to improve fuel life.

TYPICAL CHARACTERISTICS:

Specific gravity at 15°C	0.813
Flashpoint °C	75
Colour	Clear

Storage instructions: avoid strong direct light and heat.

HEALTH AND SAFETY:

Health and Safety Data Sheet 7916 applies to this product. When used for the purpose recommended and with due regard to the appropriate Health and Safety Data, the product should cause no concern. If in doubt, consult with Millers Oils technical department.
