

PRODUCT NAME/VISCOSITIES:**Ginetta Tech by Millers Oils LS 75w90**

DATA SHEET NO: 8107

DT: 04/01/17

DESCRIPTION:

Fully synthetic competition transmission oil that protects the gear teeth at low start up and high running temperatures. This transmission oil includes a triple ester formulation that works synergistically for optimised film strength and anti wear protection. The additional friction modifiers included are ideal for plate type limited slip differentials.

APPLICATION:

Designed for use in the G55 axel

USER BENEFITS:

- Laboratory tests and results show up to a further 15% reduction in friction and up to a further 17% reduction in wear over the previous award winning NT range
- Friction-modified transmission oil, which has minimised power loss characteristics
- Exceptional cold flow properties for easier gear changes
- Very good oxidation resistance and superior thermal stability
- Low friction/low drag formulation to help reduce operating temperatures
- High film strength and shock protection for maximum protection
- High performance in limited slip differentials
- Also compatible in non LS axles and transaxles

PERFORMANCE PROFILE:
