

## HEWLAND UPB 75w90 LS

### DESCRIPTION:

Competition fully synthetic transmission oil with friction modifiers for limited slip differentials. Incorporates "Nano Technology" additive chemistry to significantly reduce internal frictional and power losses, whilst providing additional shock protection to the gear mechanism.

**APPLICATION:** Designed for the lubrication of competition gearboxes and axles which require limited slip high performance oils. Hypoid differentials with limited slip, gearboxes with combined limited slip differential, synchromesh and non-synchromesh manual gearboxes, transaxles and transfer boxes.

### USER BENEFITS:

- Friction-modified transmission oil, which has minimised power loss characteristics
- Exceptional cold flow properties for easier gear changes
- Very good oxidation resistance and superior thermal stability
- Low friction/low drag formulation to help reduce operating temperatures
- High film strength and shock protection for maximum protection
- High performance in limited slip differentials
- Also compatible in non LS axles and transaxles

### PERFORMANCE PROFILE EXCEEDS:

- API GL4                      API GL5                      API MT-1                      MIL-PRF-2105E

### TYPICAL CHARACTERISTICS:

SAE viscosity grade	75w90	Specific gravity at 15°C	0.897
Kinematic viscosity at 100°C	16.03cSt	Kinematic viscosity at 40°C	88.1cSt
Viscosity index	187	Brookfield Viscosity @ -40°C	95,900mPas
Colour	Blue		

MOTORSPORT

## PRODUCT DATA SHEET

### TECHNICAL HELPDESK:

For technical assistance call +44 (0)1484 475060 or email [technical@millersoils.co.uk](mailto:technical@millersoils.co.uk)

### HEALTH AND SAFETY:

Health and Safety Data Sheet 7930 applies to this product. When used for the purpose recommended and with due regard to the appropriate Health and Safety Data, the product should cause no concern. If in doubt, consult with Millers Oils technical department.
