

PRODUCT DATA SHEET

DATA SHEET NO: 8111
LM: 18/04/19

PRODUCT NAME/VISCOSITIES:

HIGHWAY ANTIFREEZE & COOLANT CONCENTRATE - BLUE

DESCRIPTION:

Highway Antifreeze & Coolant Concentrate Blue is an ethylene glycol based automotive antifreeze and coolant containing no nitrites, amines or phosphates (NAP free). It is suitable for all year round use in the cooling systems of all internal combustion engines.

This product is a concentrate which requires a dilution of either 1:1 (50% Concentrate : 50% Water) or 2:1 (67% Concentrate : 33% Water). Use deionised or distilled water for optimum performance.

Protection Level:

Highway Antifreeze & Coolant Conc.– Blue	Approx Freezing Protection
50% Vol. in water	-24°C
67% Vol. in water	-40°C

USER BENEFITS:

- Conforms to British Standards BS 6580:2010
- Corrosion protection for engine components including steel, cast iron, copper, brass, aluminium and solder.
- 2 years full anti-corrosion inhibitor protection in use.
- Long shelf life under normal ambient temperatures - typically 5 years.
- Built in alkalinity reserve ensures corrosion protection is provided over long periods of use.
- Product suited to use with both 'hard' and 'soft' water (deionised or distilled preferred).
- Nitrite free formulation.

MEETS INTERNATIONAL QUALITY STANDARDS:

- BS 6580 : 2010 (U.K.)
- (For further Quality and OEM specifications, please see Alpine Antifreeze Range)

TYPICAL CHARACTERISTICS:

Specific Gravity @ 15°C	1.102
Colour	Blue liquid

HEALTH AND SAFETY:

Health and Safety Data Sheet 8111 applies to this product. When used for the purpose recommended and with due regard to the appropriate Health and Safety Data, the product should cause no concern. If in doubt, consult with Millers Oils Technical Department.
