

PRODUCT DATA SHEET

PRODUCT NAME/VISCOSITIES:
MILLQUENCH 96

Product No	5069
Issue No.	2
Issue Date	30/03/15

DESCRIPTION:

Millquench 96 is based on specially selected solvent refined mineral oils to minimise oxidation and ensure consistency of performance.

APPLICATION:

For general purpose normal speed cold quenching and to be used as received.

USER BENEFITS:

- Maximum economy in use.
- Uniform quenching characteristics maintained over a range of operating temperatures.
- Consistent performance.
- High oxidation resistance and thermal stability.

TYPICAL CHARACTERISTICS:

Specific Gravity @ 15.4°C	0.873
Kinematic Viscosity @ 40°C	19cSt
Flashpoint °C	208
Maximum cooling rate °C/sec	51.5
Temp @ max cooling rate °C	525

HEALTH AND SAFETY:

Health and Safety Data Sheet 5069 applies to this product. When used for the purpose recommended and with due regard to the appropriate Health and Safety Data, the product should cause no concern. If in doubt, consult with Millers Oils Technical Department.
