

PRODUCT DATA SHEET

PRODUCT NAME/VISCOSITIES:

VSPe POWER PLUS (500ml)

Product No	7917
Issue No.	2
Issue Date	26/02/19

DESCRIPTION:

This product is an 'all in one', multi shot, petrol fuel treatment providing ethanol protection, lead replacement and an octane improver dependent on selected fuel quality.

APPLICATION:

Recommended for all classic engines previously requiring leaded fuel and now running on unleaded fuel. One bottle treats 10 tanks, based on 50L tank size.

USER BENEFITS:

- Endorsed by the FBHVC as a fuel treatment for protection against corrosion in metals.
- Octane enhancement of up to 2 octane numbers (20 points) dependent on fuel quality.
- Prevents valve seat recession when used with unhardened valve seats.
- Prevents detonation, hot spots & over run.
- Prevents fuel system corrosion and helps protect components.
- Combats the adverse effects of ethanol in fuel up to E10.
- Carburettor anti-icing formula.
- Contains anti oxidant to improve fuel life

TYPICAL CHARACTERISTICS:

Specific gravity at 15°C	0.945
Flashpoint °C	70
Colour	clear

Storage instructions: avoid strong direct light and heat

HEALTH AND SAFETY:

Health and Safety Data Sheet 7917 applies to this product. When used for the purpose recommended and with due regard to the appropriate Health and Safety Data, the product should cause no concern. If in doubt, consult with Millers Oils technical department.
