

# PRODUCT DATA SHEET

## PRODUCT NAME/VISCOSITIES: EPS

Product No	7918
Issue No.	3
Issue Date	17/07/20

### DESCRIPTION:

This product is a fuel treatment which provides ethanol protection when using unleaded fuel. Prevents fuel system corrosion and helps protect components. Also compatible with catalytic converters.

### APPLICATION:

Recommended for rebuilt classic engines with hardened valve seats previously requiring leaded fuel and now running on unleaded fuel where an octane improver and lead replacement are not required. One bottle treats approximately 50 litres of unleaded fuel.

### USER BENEFITS:

- Endorsed by the FHBVC to protect against the corrosion effects of ethanol in modern fuels.
- Combats the adverse effects of ethanol in fuel (up to E10).
- Prevents fuel system corrosion.
- Helps protect components.
- Carburettor anti-icing formula.
- Compatible with catalytic converters.

### TYPICAL CHARACTERISTICS:

Specific gravity at 15°C	0.820
Flashpoint °C	75
Colour	clear

### HEALTH AND SAFETY:

Health and Safety Data Sheet 7918 applies to this product. When used for the purpose recommended and with due regard to the appropriate Health and Safety Data, the product should cause no concern. If in doubt, consult with Millers Oils technical department.
