

# PRODUCT DATA SHEET

## PRODUCT NAME/VISCOSITIES: CLASSIC SPORT CVLe

Product No	7920
Issue No.	3
Issue Date	10/12/20

### DESCRIPTION:

Valve seat lubricant and combustion enhancer based on advanced technology, providing ethanol protection. Prevents fuel system corrosion and helps protect components.

### APPLICATION:

Use as received one bottle to approx 20 litres unleaded petrol for classic sport applications. Precise treatment levels should be determined by test bed experimentation. Recommended for rebuilt classic engines/vehicles with hardened valve seats previously requiring leaded fuel and now running on unleaded fuel and where an octane improver and lead replacement are not required.

### USER BENEFITS:

- Enables older competition engines to run on unleaded fuel.
- Provides similar flame front control as lead, thereby enabling engines to run more advanced ignition timing without danger of pre-ignition or detonation.
- Combats the adverse effects of ethanol in fuel (up to E10).
- Prevents fuel system corrosion.
- Helps protect components.
- Carburettor anti-icing formula.
- Compatible with catalytic converters.

### TYPICAL CHARACTERISTICS:

Specific gravity at 15°C	0.896
Flashpoint °C	>62
Colour	amber

Storage instructions: avoid strong direct light and heat.

### HEALTH AND SAFETY:

Health and Safety Data Sheet 7920 applies to this product. When used for the purpose recommended and with due regard to the appropriate Health and Safety Data, the product should cause no concern. If in doubt, consult with Millers Oils technical department.
