

TECHNICAL DATA SHEET

Product code: 5084

Sector: Industrial

Issue No: 2

Issue Date: 23/05/22

MILLICUT CAS 14

A high performance neat cutting oil produced from solvent refined mineral oils and extreme pressure additives. Included in the formulation is a high level of additive treat to provide superior machining characteristics. Contains active Sulphur.

Application

Particularly suited to arduous metal working operations including Broaching and Thread Cutting.

Features & Benefits

- Light viscosity provides excellent penetration.
- Swarf removal readily achieved.
- High level of extreme pressure additive treatment provides excellent cutting characteristics.
- Teledyne Landis recommendation for their threading machines.

Typical Characteristics

Density @ 15°C, g/ml	0.946
Kinematic Viscosity @ 40°C, cSt	17
Flashpoint, °C	150
Copper Corrosion Test (ASTM130), rating	4c

Technical & Health and Safety
