Mould Oil 3083

Mould Oil 3083 is designed to meet the viscosity requirements of selected OEM equipment. Blended from quality mineral base stocks and high-performance additives, Mould Oil 3083 is particularly suitable for electrostatic spray applications, allowing for complete mould coverage.

Application

Use as received for effective release from the mould. Excessive build-up of product especially in corners should be avoided. Apply by electrostatic spray, spray, brush or roller.

Features & Benefits

- Produces a good surface finish.
- Excellent separation properties.
- Suitable for a variety of moulds.
- Electrostatic spray application has the potential to reduce overall usage.

Typical Characteristics

Density @ 15°C, g/ml	0.890
KV @ 40°C, cSt	150 – 180 cSt
KV @ 100°C, cSt	16
Viscosity Index	93
Pour point, °C	<-5
Flash point, °C	>200
