

TECHNICAL DATA SHEET

Product code: 8646 **Sector:** Motorcycle, Scooter & ATV

Issue No: 1

Issue Date: 02/02/26

ZFS 4T Performance 10w50

Fully synthetic with Ester Technology, 4 stroke engine/transmission oil for use in motorcycle, scooter & ATV applications.

Description

A fully synthetic oil with Ester technology for engines/transmissions (where applicable) requiring a 10w50 viscosity. Formulated with the latest additive technology for maximum performance in 4 stroke applications. Includes a constant high friction profile for wet clutch performance meeting the JASO MA2 specification requirement.

Application

Suitable for use in motorcycle, scooter & ATV engines and transmissions where maximum performance is required. Specially developed for both road and track use in both air and water-cooled motorcycles.

Performance Profile

API SN, SM, SL, SJ
JASO MA2, JASO MA1, JASO MA

Features & Benefits

- Ester formulation works synergistically for optimised film strength and anti-wear protection providing component longevity.
- Constant high friction profile for wet clutch performance meeting the JASO MA2 specification requirement.
- A fully synthetic base oil and additives provide high temperature endurance.
- Optimisation for four-stroke engines to give cleanliness and improved operation.
- Excellent oxidation resistance and valve train-wear protection.
- Seal compatibility.

Typical Characteristics

Density @ 15°C, g/ml	0.862
Kinematic Viscosity @ 100°C, cSt	18.4
Flash Point, °C	>200
