

Part code: 8672

Sector: Commercial Vehicle

Issue No: 1

Issue Date: 01/07/26

TRUCKMASTER ENGINE OIL FE 5W-20

Fully synthetic, low SAPS, low HTHS Fuel Economy Engine Oil

Application

A premium heavy duty engine oil with improved fuel economy characteristics suitable for the latest engine and exhaust after treatment technology. Designed to meet the stated OEM manufacturer specifications. Developed as a fuel economy engine oil for next generation Scania vehicles designed to run lower HTHS lubricants.

Meets requirements of

Scania LDF-5

Features & Benefits

- Low HTHS improves fuel economy vs. non fuel economy engine oils.
- Excellent cold flow properties on startup protecting vital components.
- Dynamic Fluid Technology enhances viscosity stability at high temperatures maximizing oil film protection under all conditions.
- Low SAPS technology delivering protection of catalysts, DPF's and EGR's to aid in reducing emissions.
- Extended drain capabilities where applicable, increasing interval periods.
- Bio fuel and gas compatible offering product rationalisation and reducing misapplication.

Typical characteristics

Density @ 15°C, g/ml	0.851
Kinematic Viscosity @ 100°C, cSt	8.3
Flashpoint, °C	>200
TBN, mgKOH/g	10

Footnotes: SAPS – Sulphated Ash, Phosphorus & Sulphur, HTHS – High Temperature High Shear, OEM - Original Equipment Manufacturer.
