

COMMERCIAL VEHICLE RANGE

ABOUT MILLERS OILS

Millers Oils is a leading manufacturer and independent blender of oils and lubricants, operating since 1887 in Brighouse, West Yorkshire. We pride ourselves on our award-winning innovation and our independence which allows maximum flexibility to meet our customers' needs.

COMMERCIAL VEHICLE

At Millers Oils, we understand the demands placed on commercial vehicle operators. Maintaining vehicle reliability is essential to keeping schedules on track, reducing downtime and controlling operating costs. Long-haul journeys, urban stop-start driving, heavy loads and increasingly complex emissions technology all place greater demands on engines and driveline components. Combined with rising fuel costs and changing legislation, selecting the correct lubricants has never been more important.

Millers Oils offers a comprehensive range of commercial vehicle lubrication solutions designed to support modern Euro 6 fleets, mixed vehicle operations, older commercial vehicles and specialist applications. Offering a range of engine oils, driveline lubricants, greases, hydraulic oils, antifreeze and coolants, and fuel treatments, our portfolio helps operators simplify lubricant selection while protecting critical components, maximising uptime and supporting long-term fleet reliability.

COMMERCIAL VEHICLE FLUID AND LUBRICANT APPLICATIONS

Millers Oils prides itself on supplying a comprehensive range of oils, fluids and treatments for all vehicles.

ENGINE OIL

- Truckmaster
FE 5W-20, FE 5W-30, 5W-30, 10W-30, SVX 10W-40, 10W-40, 15W-40
- Multifleet
5W-30, 10W-30, Plus 10W-40, 10W-40, 15W-40, 20W-50
- Maxifleet
30, 40, 50, 10W-30, Plus 15W-40, 15W-40, 20W-50

ENGINE REBUILD & REFRESH

- Assembly Lubricant
- Running In Oil
- Liquid Glaze Bust

ANTIFREEZE & COOLANT

MEG Si-OAT

- Alpine Lilac Concentrate
- Alpine Lilac Ready Mixed

MEG PSi-OAT

- Alpine Green Concentrate
- Alpine Green Ready Mixed

MEG OAT

- Alpine Red Concentrate
- Alpine Red Ready Mixed
- Alpine Yellow Concentrate
- Alpine Yellow Ready Mixed

MEG IAT

- Alpine Blue Concentrate
- Alpine Blue Ready Mixed

HYDRAULIC & STEERING

Hydraulic System

- Central Hydraulic Fluid (CHF)
- LHM Plus
- Millmax Range

Power Steering System

- Power Steering Fluid (PSF)

LUBRICANT

- Curtain Lube 164

GREASE

- PBL
- Delta 000EP
- Delta 00EP
- Delta 0EP
- Delta 1EP
- Delta 2EP
- Delta 3EP
- Deltaplex 2EP
- Black Moly MM2
- Hi-Mol 20
- Red Rubber Grease
- Millergrease NS Copper
- Water Pump Grease

FLUID

- Calibration Fluid 4113
- Dewatering Fluid 1782

DRIVELINE OIL

Gear Oil

- Truckmaster
75W-80, 75W-90, LS 80W-90, 80W-140
- Multifleet
75W-90, 80W-90, 85W-140
- Maxifleet
90, 140

Auto Transmission Fluid

- Truckmaster ATF MT
- Multifleet ATF Universal

BRAKING SYSTEM

- ESP Brake Fluid DOT 4 LV
- Universal Brake Fluid DOT 4

BRAKE CLEANER

- E-Vap Brake Cleaner

DIESEL FUEL TREATMENTS

- Diesel Power ECOMAX Heavy Duty
- ZerofloTwo

ENGINE OIL RANGE

The right engine oil for every fleet

Our engine oil portfolio is divided into three ranges, making it easy to select the right product based on vehicle age, OEM requirements and operating conditions.

Range	Best Suited For	Main Coverage	Key Benefits
Truckmaster	Latest heavy-duty engines requiring low SAPS, low HTHS fuel economy lubricants. Ideal for vehicles fitted with advanced exhaust after-treatment systems and operating within OEM warranty requirements.	ACEA, API, JASO Caterpillar Cummins DAF Daimler Truck Detroit Diesel Deutz Mack MAN Mercedes-Benz MTU Renault Scania Volvo	• Supports latest engine technology • Suitable for advanced after-treatment systems • Helps maintain performance and protection • Supports long drain requirements
Multifleet	Mixed fleets incorporating Euro 6 emissions standards, primarily vehicles that are out of warranty and typically up to 10 years old.	ACEA, API, JASO Caterpillar Cummins DAF Daimler Truck Detroit Diesel Deutz Mack MAN Mercedes-Benz MTU Renault Scania Volvo	• Versatile fleet applications • Simplifies lubricant selection • Supports operational flexibility
Maxifleet	Older commercial vehicles and specialist vehicles often operating in export markets, including parts of Asia, Africa and the Middle East, where legacy engine technologies and pre-Euro 6 specifications remain widely used.	ACEA, API, MIL Detroit Diesel Deutz MACK MAN Mercedes-Benz Renault Volvo	• Supports older vehicle technology • Reliable protection in demanding applications • Helps extend working life of existing equipment

DRIVELINE

Our driveline portfolio complements the engine oil range consisting of gear oil and automatic transmission fluid. The range includes solutions designed to support smooth operation, wear protection and component life across commercial applications including manual, automated and automatic transmissions/ differentials etc.

Available across the Truckmaster, Multifleet and Maxifleet ranges, these products are formulated to meet differing OEM requirements and operating conditions.

Key Benefits

- Smooth gear operation
- Excellent wear protection
- Extended component life
- Wide OEM coverage
- Wide range of gear oil viscosities

GREASE

Our grease portfolio provides lubrication and protection for heavily loaded commercial vehicle chassis components, bearings and other applications where protection against wear and contamination is essential.

Key Benefits

- Excellent load carrying capability
- Water resistance
- Corrosion protection
- Reduced wear
- Wide range of NLGI grades

HYDRAULIC OIL

For reliable performance, Millers Oils hydraulic fluids help maintain system efficiency while protecting pumps, valves and other critical components.

Key Benefits

- Reliable performance under load
- Pump and valve protection
- Oxidation resistance
- Consistent operation across temperatures
- Wide range of viscosities

ANTIFREEZE & COOLANT

Effective cooling system protection is essential for commercial vehicles operating all year round, with different chemistry requirements. Millers Oils range of MEG products includes IAT, OAT, Si-OAT and PSi-OAT for maximum protection for a variety of vehicles.

Key Benefits

- Corrosion protection
- Cavitation protection
- Freeze protection
- Overheating protection

FUEL TREATMENT

Fuel quality has a direct impact on modern diesel engine performance, emissions and efficiency. Millers Oils fuel treatments help support a cleaner, more efficient diesel operation.

Key Benefits

- Maintains injector cleanliness
- Supports combustion efficiency
- Provides additional lubricity
- Helps reduce deposits
- Supports emissions performance
- Wide range of chemistry options

At Millers Oils, our support goes far beyond the product. Protected by Millers Oils is a complete support package designed to help businesses deliver better results, every time. Built on decades of expertise and strong partnerships across the trade, it combines high-performance lubricants with direct technical support, expert insight, dedicated account management, and services such as oil analysis to help identify potential issues before they become costly problems.

Whether you're managing multiple vehicle types, advising customers at the counter, or carrying out servicing in the workshop, we're here to support you at every stage. Our focus is to make your day-to-day operations smoother, more efficient, and more profitable. With trusted products and a clear service promise behind every recommendation, Protected by Millers Oils helps you build customer confidence, strengthen your reputation, and future proof your business.

YOUR FLEET. YOUR REPUTATION. PROTECTED BY MILLERS OILS.

WHICH OIL?

Millers Oils **WHICH OIL?** tool is your go-to solution when you need quick, accurate product recommendations. Just head to our website and enter a vehicle registration or select the make and model, and you'll instantly see all the suitable Millers Oils products for that vehicle.

WHICH OIL? takes the guesswork out of oil selection, so you can get it right, every time.
